Reissue Application: 09/512,734

Attorney Docket No. 103864-1101PATENT OFFICIAL

## IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Reissue Application of :  
Christopher J. LASHER, et al. :  
Serial No.: 09/512,734 : Group Art Unit: 3721  
Filed: February 24, 2000 : Examiner: J. Sipos  
FOR: ENHANCED DRUG DISPENSING SYSTEM

## Supplemental Declaration for Reissue Application

As a below named inventor, I hereby declare that:

My residence, Post Office Address and Citizenship are as stated below next to my name, and that:

I/We verily believe that I/We am/are the original first and joint inventor of the invention entitled ENHANCED DRUG DISPENSING SYSTEM, described and claimed in the specification, that I have reviewed and understand the contents of the specification, including the claims, as well as the claims referred to in this declaration.

My original U.S. Patent 5,720,154 which matured from serial number 08/455,402, filed May 31, 1995, and which is continuation application of application Ser. No. 08/250,435, filed May 27, 1994, is partly inoperative or invalid by reason of claiming less than and more than I had the right to claim through error. In addition, this is a broadening reissue application.

Original claim 19 was too broad in reciting the limitation "to simultaneously count out and dispense pills." Claim 19 has been narrowed to recite "to simultaneously count out pills from said pill dispensers and sequentially dispense said counted pills."

Every error in the patent which is being corrected in the present reissue application, and which is not covered by any prior oath and/or declaration submitted in this application, arose without any deceptive intent on the part of the applicant and inventors during prosecution of the original application which matured as U.S. Patent No. 5,720,154.

No factual basis is required establishing how the errors occurred under 37 C.F.R. § 1.175.
